and NSD File No. L-00-72.

Dear FCC:

Dear FCC Chairman and Commissioners,

I believe it will be wrong to impose any form of taxes on people now. People are hurting so much from the economy. Moreover, we voted President Bush into power because we believed his no new tax promise. Most people will go to poll next week bearing in mind that as far as taxes are concerned, there are no differences between the two major parties. Please, suspend this decision to increase communications taxes until there is absolute sign that the economy is improving.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

George Mbata
